

Broker Tool Set Overview

Company Branding

The RPR application can be branded to your organization, reinforcing to your agents a consistent image and the value provided through your company. Your brand will also be prominently displayed on all RPR reports created by your agents for their clients.

Market Intelligence

Easily run statistical reports on market conditions, productivity trends, listing & sales metrics and market share. These statistics can be compiled across multiple MLS's into a single data feed, allowing the broker or manager to compare company offices to each other and to the market.

Affiliated Services

Promote your Mortgage, Title, Home Warranty, Insurance or other specialized services to your agents on your branded RPR site, as well as in reports presented to clients.

RPR is not just for agents; it is an invaluable tool for broker/owners and managers. RPR Broker Tool Sets provide value to your company by reinforcing your brand, promoting your ancillary services and providing a statistical analysis of your company's performance compared to the market. And just like the agent tools in RPR, the Broker Tool Sets are provided at no cost!
